

Transform yourself into a T. rex!

Follow along to make a mask cover!

1

Color and decorate your mask cover.

Make sure to decorate before you cut!

Final Product:

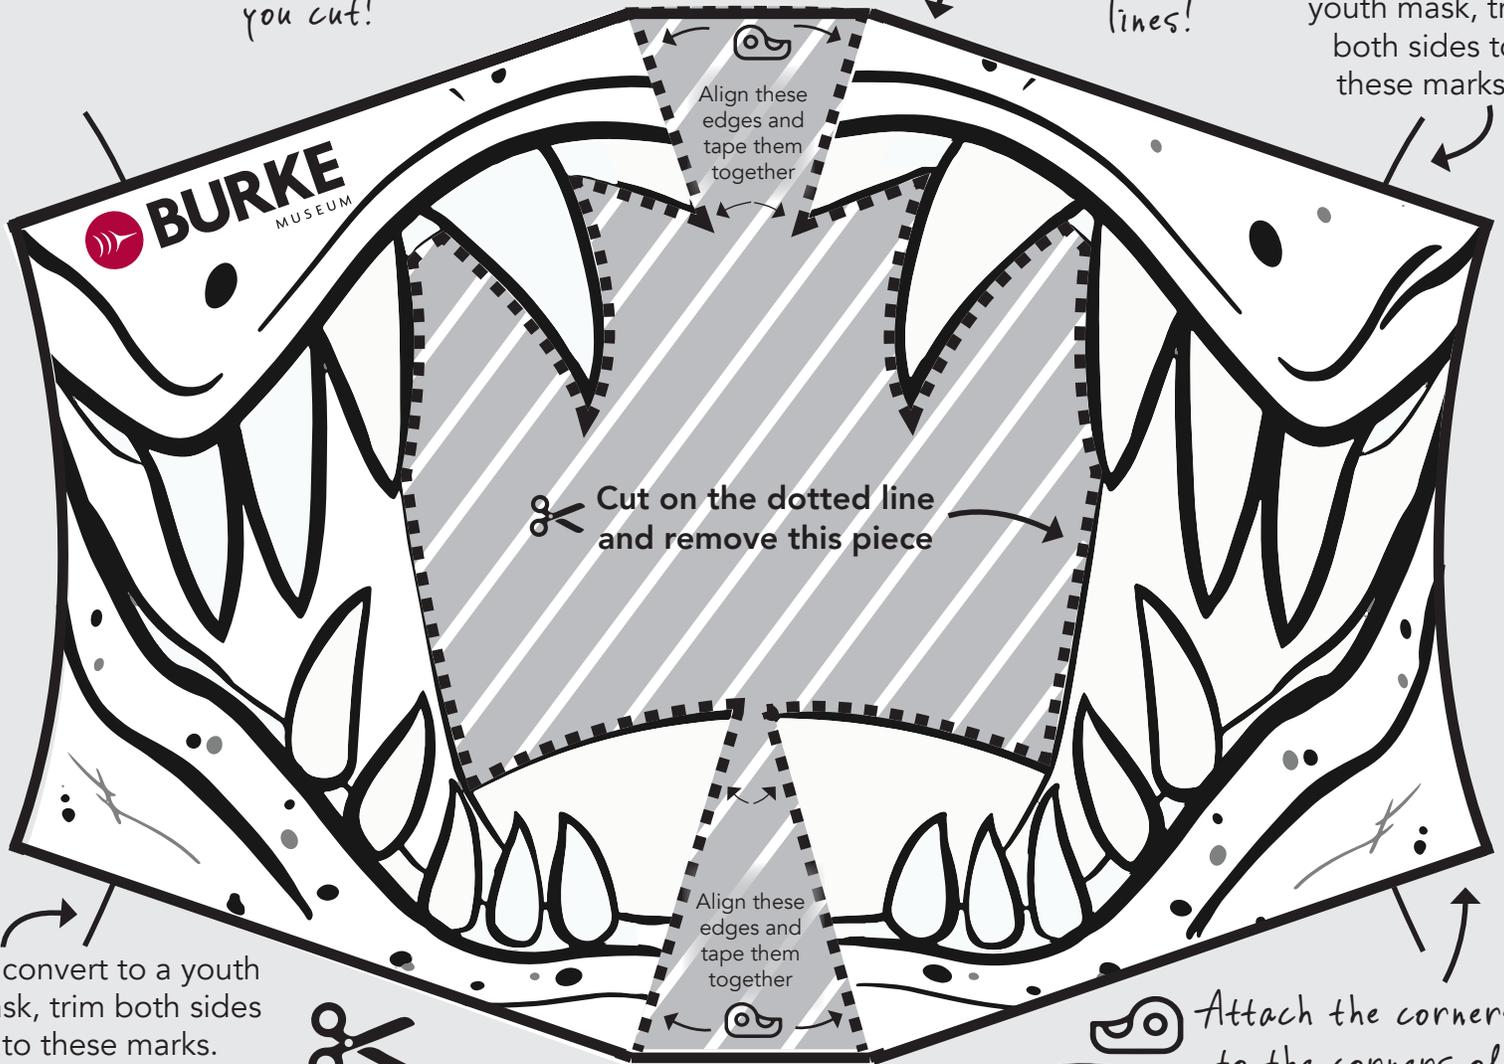

2

Cut your cover out along the outside borders!

Make sure you cut the outside solid lines!

To convert to a youth mask, trim both sides to these marks.

Align these edges and tape them together

Cut on the dotted line and remove this piece

Align these edges and tape them together

To convert to a youth mask, trim both sides to these marks.

Start here!

Make the corners meet!

Attach the corners to the corners of your mask!

3

Cut out the striped inner insert along the dotted line.

4

Align and center edges and tape them together.

5

Staple or tape the four corners of your mask cover to a standard disposable mask.
