

MICROFOSSIL

COMMUNITY SCIENCE WORKSHOP

Saturday, January 24, 2026

9 a.m. – 4:30 p.m.

Join the Discoveries in Geosciences (DIG) team for a professional development workshop for grade 3–12 STEM educators.

- Learn about the Hell Creek Project
- Identify microfossils
- Get a closer look at the Burke Museum Fossil Prep Lab

Teachers who complete the workshop will be eligible to rent our DIG Microfossils Box for free. With these resources, students can participate in actual UW research by looking for microfossils in sediment samples, examine fossil casts, and connect with scientists from world-class institutions.

Workshop participants are also eligible to receive six (6) WA State STEM Clock Hours.

\$60 registration fee. Registration closes on Friday, January 9, 2026.
